

## 2010 PERIOD / YEAR-END CLOSING PROCEDURES – Dynamics GP 9.0

**Warning:** Smartlist will not reflex the correct 1099 summary amounts if the AP calendar YE close was run after next year 1099 Trx were posted

**Warning:** If you are not keeping history you will lose the PO forever once you remove completed purchase orders

**Warning:** Do not open Dynamics GP until 2010/2011 Payroll Tax Updates are installed on ALL workstations

**Warning:** Do not process or post to year 2011 for Payroll until Year-End closing is completed.

**Warning:** Do not install the 2011 Payroll Tax Table until the YE Wage table has been created.

**Note:** You may want to create a test company to practice Year-End (YE) closing procedures.

**Note:** Make sure you have enough hard drive space to run the YE closing.

Find your file/table GL20000, and make sure you have double that amount of available hard drive space.

Prior to installing Payroll Year-End Close download make sure you have the most recent service packs loaded, should be on the following by Version:

Status	Module/Event	Dynamics GP Menu Location
_____	Post all applicable Batches in all the Modules	>Tools>Routines>Master Posting
_____	Confirm there is enough hard drive space to make backups	Check with IT staff
_____	Backup Database(s)	SQL - Backup Company DB
_____	DB Check Links - all modules	>File>Maintenance>Checklink
<b>PERIOD CLOSING: <i>Purchase Order Processing</i></b>		
_____	Purchase Order Processing Reconcile	>Tools>Utilities>Purchasing>Reconcile Purchasing Document
_____	Remove Completed Purchase Orders	>Tools>Routines>Purchasing>Remove Completed Purchase Orders
_____	Print: Purchase Order Status Report	>Reports>Purchasing>Analysis>Purchase Order Status
_____	Print: Received/Not Invoiced Report	>Reports>Purchasing>Analysis>Received/Not Invoiced
_____	Print: Shipment/Invoice Matching Activity Report	>Reports>Purchasing>Analysis>Shipment/Invoice Matching
_____	Print: Receiving Transaction History Report	>Reports>Purchasing>History>Receivings Trx History

## 2010 PERIOD / YEAR-END CLOSING PROCEDURES – Dynamics GP 9.0

Status	Module/Event	Dynamics GP Menu Location
<b>PERIOD CLOSING: Sales Order Processing</b>		
_____	Sales Order Processing Reconcile	>Tools>Utilities>Sales>Reconcile – Remove Sales Document: Reconcile Sales Documents

_____	Install the 2011 Payroll Tax Update	
_____	To Process the 2011 pay runs. The USER DATE must occur in 2011.	

## 2010 PERIOD / YEAR-END CLOSING PROCEDURES – Dynamics GP 9.0

Status	Module/Event	Dynamics GP Menu Location
	<b>YEAR END CLOSING: <i>General Ledger</i></b>	
_____	Run the GL Reconcile	>Tools>Utilities>Financial>Reconcile
_____	Close Fiscal Periods for Financial Series	>Tools>Setup>Company>Fiscal Periods
_____	Maintain History for Accounts and Transactions - marked	>Tools>Setup>Financial>General Ledger
_____	Confirm all Accounts have correct Posting Type	>Report>Financial>Account>Posting
_____	Print: Year-end Detail Trial Balance	>Reports>Financial>Trial Balance>Detailed
_____	Print: Balance Sheet	>Reports>Financial>Financial Statements; FRx; or other application
_____	Print: Profit and Loss Statement	>Reports>Financial>Financial Statements; FRx; or other application
_____	Print: Statement of Retained Earnings	>Reports>Financial>Financial Statements; FRx; or other application
_____	Print: Statement of Cash Flow	>Reports>Financial>Financial Statements; FRx; or other application
_____	Set up Next Year's Fiscal Periods	>Tools>Setup>Company>Fiscal Periods
_____	Year-End Closing	>Tools>Routines>Financial>Year-End Closing >Reports>Financial>Advanced
_____	Update Advanced Financial Analysis Reports	<b>Note:</b> need only if using DYNAMICS GP FS Reports Make a backup of the Dynamics GP application program, database engine, System Folders/Dynamics DB, the Company Folders/SQL Company DBs, and Reporting applications and data files
_____	Make a final backup of the Company data that will be kept permanently.	

The reason for backing up all the above items and not just the company data is in the event the annual data must be restored. The data that will be restored must be restored into the same environment in which it was backed up. The data needs the same Dynamics GP application version, database engine, and services packs. If all the above items are not backed up and the annual data must be restored, the user in all likely hood will have to try and determine the version and service packs that were active at the time the data was backed up. This could be a nightmare to an impossible situation.
